

Karen Besterman-Dahan, PhD, RD

(813) 508-5020

kbdahan@gmail.com

Commission on Dietetic Registration 713932

Appointments:

Qualitative Core Director - Tampa

Medical Anthropologist – Health Research Scientist

HSR&D/RR&D Center of Innovation on Disability and Rehabilitation Research, James A Haley VAMC - Tampa, Florida: 2008 – present

Visiting Professor

College of Nursing, University of South Florida, Tampa, Florida 2012-2013

Courtesy Faculty:

- College of Nursing, University of South Florida, Tampa, Florida, 2013-present
- Department of Anthropology, College of Arts and Sciences, University of South Florida, Tampa, Florida: 2009-present
- Department of Aging and Mental Health Disparities, Louis de la Parte Florida Mental Health Institute, College of Behavioral & Community Sciences, University of South Florida Tampa, Florida: 2009-present

Adjunct Faculty:

- Department of Criminology, College of Arts and Sciences, University of South Florida, Tampa, Florida: 2010-2011

Previous Positions:

- **Research Associate**, Department of Cancer Control/Health Outcomes and Behavior H. Lee Moffitt Cancer Center & Research Institute, Tampa, FL; 2006-2008
- **Clinical/Research Dietitian**, Department of Nutrition H. Lee Moffitt Cancer Center & Research Institute, Tampa, FL; 1992 – 2006
- **Consultant Dietitian**, Redline, Denver, CO, 1995 –1997
- **Clinical Dietitian**, Shepherd Spinal Center, Atlanta, GA. 1991-1992
- **Clinical Dietitian**, Southern Regional Medical Center, Riverdale, GA, 1989-1991

Education:

University of South Florida, Tampa FL
Ph.D. – 2008: Biocultural Anthropology

University of South Florida, Tampa, FL
M.A. – 1999: Adult Education

Florida International University, Miami, FL
B.S. – 1989: Dietetics and Nutrition

Teaching Experience:

- CCJ 6709 – Qualitative Methods in Criminology – Graduate course of qualitative perspectives and methodological designs in criminological research and inquiry – USF Department of Criminology (2011)
- Guest Lecturer, Qualitative Methods -Ethnography, USF College of Nursing (2008, 2012)
- Guest Lecturer, Symbolic Anthropology-Anthropological Theory, USF Department of Anthropology, (2008)
- Guest Lecturer, Human Nutrition, USF Department of Biology (2007)
- Guest Lecturer, Human Nutrition (HUN2201) USF College of Nursing (1995-2007)

Academic Service

- Reviewer for *Journal for Mixed Method Research*, 2011-present
- Reviewer for *Health Psychology and Behavioral Medicine: an Open Access Journal*, 2013-present
- Reviewer for *Health Care: Current Reviews*, 2014-present
- Reviewer for *Human Organization*, 2014-present
- Dissertation Committee Member, Bridget Cotner, PhD (2014), Department of Measurement and Research, College of Education, USF

Professional Societies:

2014 to present	American Institute for Maghrib Studies
2013 to present	National Association for the Practice of Anthropology
2005 to present	American Anthropological Association
2010 to present	Society for Anthropology of Religion
2005 to present	Society for Medical Anthropology
2005 to present	Society for Applied Anthropology

Ongoing Research Support**CRE 12-302 - VA HSR&D– Powell-Cope (PI)/Besterman-Dahan (Co-PI) 2014-2017****Action Ethnography of Community Reintegration for Veterans with TBI**

The goal of this study is to better understand the experiences of Veterans with moderate to severe TBI, families and community workers as they reintegrate into communities. **Role: Co-PI**

NCE 13-430 – ORD – Powell-Cope (PI) 2013-2015**VA Nursing Innovations Center for Evaluation (NICE)**

The mission of the proposed center, VA Nursing Innovations Center for Evaluation (NICE), is to provide ONS with world class services and consultation for evaluating the structures, processes, and impacts of VA nursing initiatives. **Role: Co-I**

IIR 11-343-2 - VA HSR&D - Uphold (PI) 2013-2017**Utilizing the RESCUE Stroke Caregiver Website to Enhance Discharge Planning**

This randomized clinical trial is to determine the effects of a problem-solving intervention using the RESCUE website and online text messaging on stroke caregiver outcomes.

Role: Site PI (Tampa)**1 I50 HX001233-01 [VA HSR&D/RR&D]Mann (PI/Director) 2013-2018****Center of Innovation on Disability and Rehabilitation Research**

The CIDRR engages in research to develop strategies for improving rehabilitation services and the long term management of disability including issues that impact family members, for Veterans of all ages. **Role: Core Investigator/Qualitative Core Director**

Completed Research Support**D7800P -VA-RR&D – Besterman-Dahan (PI) 2011-2013****Exploring Deployment Stress and Reintegration in Army National Guard Chaplains.**

The purpose of this pilot study is to explore the impact of deployment on the psychosocial and health characteristics and reintegration of Military Chaplains, specifically those of the Army National Guard (ARNG). **Role: Principal Investigator**

USF Veteran Reintegration Foundation– Braue & Besterman-Dahan (PI) 2011-2012**Elements of a Veteran Friendly Campus**

The purpose of this pilot study is to evaluate perceptions of barriers and facilitators to reintegrations and needs of student veterans from multiple perspectives, including student veterans, faculty and staff. **Role: Co-PI**

XVA 95-009 - VACO– Elnitsky (PI) 2011-2012**Evaluation of a Program for Management of Disruptive Behavior**

The purpose of this study is to to examine current practices associated with VA facility-based violence risk assessment processes. **Role: Co-Investigator**

XVA-95001 -VACO Special Projects - Nelson (PI) 2008-2012**Evaluation of the VHA Safe Patient Handling Initiative**

This longitudinal evaluation uses a mixed methods approach, with data collection over a 3 year period with the goal of assessing processes and outcomes associated with comprehensive SPH Initiative. **Role: Co-I**

IIR 06-164 -VA- HSR&D - Scott (PI) 2009-2011**Blast-Related Health Problem Identification and Polytrauma Taxonomy**

The purpose of this prospective study is to develop taxonomy of polytraumatic injuries using a large cohort of Florida National Guard. **Role: Co-Investigator**

XVA95001 1- VACO - Powell-Cope (PI) 2009-2011

Characterizing Successful Facilitation

The goal of this study is to understand how and why facility champions successfully implement the National Safe Patient Handling program at their facilities. **Role: Co-Investigator**

RRP 09-175 VA-QUERI - Neugaard (PI) 2009-2011

Heart Failure Outcomes: A Self- Management Care Coordination Pilot Program

The purpose of this set of formative evaluations is to refine a set of care coordination processes for patients with heart failure. **Role: Co-Investigator**

XVA 95002-01 PSCI/VA NPSC Safety- Powell-Cope (PI) 2009-2011

Social Marketing to Support Fall Prevention in Inpatient Psychiatry Units

The goal of this project is to determine market segment specific recommendations for “selling” falls prevention in acute inpatient psychiatry. **Role: Co-Investigator**

E3974R VA RR&D - Nelson (PI) 2007-2010

Characterizing Wheelchair-Related Falls in Elderly Veterans

The goal of this study is to determine the etiology and risk factors for wheelchair–related tips and falls among elderly veterans and to determine the outcomes and consequences of these falls.

Role: Co-Investigator

O4-4006RA - VA RR&D - Quigley (PI) 2006-2009

Effect of Exercise on Gait and Balance in Peripheral Neuropathy

The goal of this study is to improve successful adaptation to aging and quality of life in veterans with lower extremity peripheral neuropathy. **Role: Co-Investigator**

3R01CA122060-02S1 - NIH 5R01CA122060-02 NCI (Kumar (PI) 2007-2008

A Phase II Clinical trial of Polyphenon E in Prostate Cancer

The goal of this randomized, double-blinded chemopreventive trial is to determine the effects of polyphenon E (green tea polyphenols) in modulating prostate cancer progression in men with HGPIN. **Role: Co-I**

GlaxoSmithKline - Kumar NB (PI) 2007-2008

A Phase II clinical trial of n-3 fatty acids in cancer cachexia

The goal of this trial was to determine the efficacy of n-3 fatty acids in modulating cancer cachexia on cancer patients on selected biomarkers. **Role: Co-Investigator/Clinical Trial Coordinator**

NCI - Kumar NB (PI) 2001-2006

The Specific Role of Isoflavones in Reducing Prostate Cancer Risk

The goal of this randomized, double-blinded study was to determine the efficacy of purified soy isoflavones in producing a change in hormonal and proliferative risk parameters in men with prostate cancer **Role: Co-I**

NCI-P02-0216 NCI - Kumar NB (PI) 2002-2006

A Randomized Pilot Clinical Trial of the Action of Isoflavones and Lycopene in Localized Prostate Cancer: Administration Prior to Radical Prostatectomy

The goal of this study was to determine the efficacy of purified soy isoflavones and lycopene in producing a change in men with prostate cancer. **Role-Co-Investigator**

AICR99 B030 & DOD US Army - Kumar NB (PI) 2000-2002

Specific role of genistein in reducing hormonal and proliferative risk parameters in prostate cancer. Role: Co-Investigator

NCI/NABTT - Brem (PI)

1999-2001

Phase II study of Penicillamine and reduction of Copper for Angiosuppressive Therapy of Adults with Newly Diagnosed Glioblastoma. Role: Research Dietitian
